

Customer

Company Name: _____ Date: ____ / ____ / ____

Contact Name: _____ City/State/Country: _____

Telephone: _____ Email: _____

Description of Application

Customer

Rotating Speed: _____

Operating Lifetime: _____

Environmental Conditions / IP Rating: _____

Temperature Range (Min/Max) Operating: _____ Storage: _____

Is field maintenance allowed? Yes No

Mechanical Specifications

Overall Length _____ Overall Diameter _____ Center Bore No Yes Ø _____ Max Weight: _____

Mounting: Threaded Rotor Thread Type: _____ Size: _____

 Flanged Rotor Bolt Number & Angle: _____ Diameter: _____ Bolt Hole Size: _____

Other: _____

Orientation of the Axis When Rotating: Horizontal Vertical Axial Output / Downward Vertical Axial Output / Upward

Rotating Part: Shaft Housing

Electrical Specifications

Channel Function	Number of Channels	Current (amps)		Maximum Voltage (volts)
		Maximum Steady State	Maximum In-Rush (+duration)	

Electrical Connections

Rotating connection description (connector types, terminal blocks, leadwire type, size, and length):

Stationary connection description (connector types, terminal blocks, leadwire type, size, and length):

Additional Information

Quantity: _____

Delivery Date: _____

Estimated Annual Usage: _____

Target Purchase Price: _____
